DETAILED ACTION

Continued Examination Under 37 CFR 1.114

The request filed on 1-5-01 for a Request for Continued Examination (RCE) under 37 CFR 1.53(d) based on parent Application No. 09/517,987 is acceptable and a RCE has been established. An action on the RCE follows.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 and 69-76, drawn to a method of making a FET with a raised source/drain, classified in class 438, subclass 300.
- II. Claims 77-84, drawn to a raised source/drain FET, classified in class 257, subclass 344+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process, for instance, the source/drain region could be formed first prior to either the gate electrode or the definition of the active area.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard A. Booth whose telephone number is 308-3446. The examiner can normally be reached on Monday to Thursday from 7:30 to 6:00.
